KUHIO NAILS CAMPAIGN CANARDS ON KAUI PASTORS DROPIAUKEA; ATTACK DIVORCE

Ministers Turn Down Thwing's Resolution In Favor of Iaukea

Sheriff Iaukea was this morning able to find out what an utterly ungrateful world this is. In spite of the fact that he has for many moons been following blindly the dictates of the Ministerial Union, thereby undoubtedly losing much support which he might otherwise have gotten, that body this morning turned down flatly a resolution of appreciation of his conduct. This was done on the ground that it might be looked upon as a political measure, and as the Sheriff is at present looking more than anything else for things which will have political effect, needing them badly in his business, this statement seems to add insult to injury.

And the men who did this were Theodore Richards, whose camp Iaukea declined to proceed against, and Doremus Scudder, backed by the entire number of members present at the meeting—except Thwing, who for months past has been sticking to the Sheriff closer than a brother, and who, at least, stuck to him to the last.

The resolution was offered by Thwing as a sort of report of the committee appointed to look into the enforcement of the law. It recommended first of all that a resolution be passed expressing the apprecia-

Everybody Roasted at Meeting of Fusionists

The Home Rule-Achi combination opened its active campaign last Saturday evening with a meeting at Ania Park, which was attended by a fairly large and enthusiastic audience. With the exception of two Hawaiians who entertained the audience by dancing and hulaing to the tune of music, the meeting was most orderly.

"Send a Delegate to Congress to represent the rich and poor alike," said Charles K. Notley, candidate for Delegate to Congress.

"Shall the trusts rule or shall the people rule, the corporations such as the Standard Oil company or the Inter-Island Steamship Company?" was the tenor of the remarks of W. C.

Fukuda Captured

(Special Bulletin Wireless)
Walluku, Maui, Oct. 5.—Fukuda, the Japanese who is wanted for killing his wife and her paramour at Kohala last year, was captured by the Sheriff and posse Sunday morning at Puu-ne Camp Ten. The man was gambling at the time he was captured. He made a desperate fight to get away from the police but was finally landed in the jail.

FLEET STILL SILENT THOUGH NEARLY DUE

Nothing Heard From the
Cruiser Fleet Or
Colorado

With the Fleet due in two days, wireless communication with the cruisers has not yet been established at the Naval Station. Attempts will be made this evening to talk with the West Virginia, but it is hardly expected that any talking will be done before the following evening. The local wireless people have no one listening for the Fleet.

Piles of coal are now growing on the Alakes and Naval wharves, in order to have everything in readiness for the arrival of the ships. The Alakea wharf is now loaded down with cones of the black fuel, and they are being fed on the Naval wharf by a stream of carts which is going continuously along the city front. Twenty thousand tons must be put into the bunkers of the cruisers and the destroyers this trip—twice as much as was put in during their last stay here, a coaling operation of real magnitude. The Saturn is also loaded down to the water, and may be used as before in putting fuel into the bunkers of the fighting ships.

These are due to arrive on Wednesday, if they are proceeding according to the schedule they had when leaving this place, and only some very important circumstance would cause them to vary.

The cruiser Colorado, which was stated by cable some time ago to be due in Honolulu on the 5th—that is, today—is not looked for just yet, as the investigation of her recent accident in going ashore on the Coast was completed only Saturday, and there is a report that some matter in connection with her ammunition delayed her departure for this port.

CHANDLER SHUT OUT

Deputy Attorney General Whitney has rendered an opinion to the effect that the nomination papers received by Secretary Mott-Smith on Sunday should be accepted. In this he advises against the action of Secretary Mott-Smith, who refused papers filed after Saturday at midnight.

Whitney holds, however, that the nomination papers of Chandler of Kauai, received today, should not be accepted.

CHANDLER COULDN'T ACCEPT CHALLENGE

Could Not Back Charge
He Made Against
Kuhio

Jonah K. Katanianole, Delegate to Congress, who returned yesterday from Kauai, reports that the island is Republican. Of course there are some Democrats and Home Rulers, but very few of them dared to face the Delegate, when challenged to explain certain accusations made against him by the Democrats.

"I had a very encouraging trip around the island of Kauai," said the Delegate today. "Accompanied by George Fairchild and other Republican workers, I traveled around the island for the purpose of addressing the people at various places. We held meetings at Lihue, Kekaha, Waimea, and other places. The attendance was large and the people listened to the speakers most attentively. The most important thing that I had to do while there was to correct the false report regarding the disfranchisement of the Hawaiians.

"I was informed that Chandler, a Democratic nominee for Senator, told the Hawaiians that I had introduced a bill in Congress, urging the disfranchisement of the Hawaiians. At Kekaha, where I addressed a meeting and where Chandler was present, I challenged him to come forward and prove to the people whether I had actually introduced such a bill in Congress. He never came forward, nor did he attempt to say anything in regard to the bill.

"That was the most important subject that my attention was called to. The immigration question and the disfranchisement question had apparently been agitated by the Democrats, but after I had had my say, the people were satisfied with the situation.

"From my own observation, I believe that Kauai will vote the Republican ticket."

Tonight

The formal opening of the Republican campaign will take place this evening, when the great ratification meeting will take place at Ania Park. The best of speakers have been selected for the occasion, both candidates who are running for important offices, and non-candidates who are favorites with the public on account

How Dole May Decide

All indications point to a decision favorable to the Government in the test case of corporation contributions to campaign funds. There is no absolute certainty about this but if a man were a gambler he would be taking good chances on the Government's end of it.

It is believed that Judge Dole will hold that while the corporations of Hawaii are not corporations organized by act of Congress, the election of a Delegate is on the same basis as a Representative to Congress from a State.

MINISTERS WILL COMBAT DIVORCE

Thwing Heads Committee
Which Will Fight
Evil

The Ministerial Union at its meeting this forenoon decided to try to stem the tide of the divorce evil, which appears to have become exceedingly prevalent in the Territory of late. A committee was appointed to look into the matter, and was instructed to report thereon at the next meeting of the Union.

The subject was brought up by Thwing.

"There has been a large increase in divorces here of late," he said. "During the month of September there was more than one a day. We ought to consider the matter and see if there is anything we can do to lessen the evil, as for instance having more publicity before re-marriage, observed, at least, by us ministers. This concerns the welfare of homes and the honor of the sacred rites of marriage in their relation to the ministry. I therefore move that a committee be appointed to look into the matter."

Chairman McKeever, after this motion had been carried unanimously, appointed Thwing, Frank Scudder and Rev. H. W. Chamberlain as such a committee, with instructions that they report at the next meeting.

During this meeting the Union selected new officers for the coming year, namely Rev. Mr. McKeever for president and Rev. Mr. Ebersole for secretary and treasurer. The latter and Henry Judd were elected members of the Union.

Canneries Not Exempt, Says Supreme Court

The Supreme Court this morning handed down a decision in the tax appeal cases of seven pineapple companies, rendering its opinion in favor of the Attorney General, in the contention that the pineapple forty-acre tax exemption does not include everything in sight.

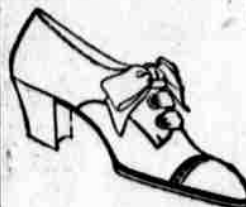

The companies concerned are as follows: Wahiawa Pine Company, Hawaiian Pineapple Company, Pearl City Fruit Company, Honolulu Packing Company, Haku Fruit and Packing Company, Hilo Fruit Company, and the Kauai Fruit and Land Company. The decision is based on appeals taken from the various tax appeal courts.

The Court sums up the cases as follows: "The above entitled cases, involving the taxation of the property of pineapple companies, were submitted together, the companies claiming an exemption of all real and personal property with the exception of forty acres of land each, including in their claim for exemption their establishments for canning pineapples. The Honolulu Packing Company, Ltd., holds more than forty acres of land under lease but has no cannery. The
